

Pascoe Industries Pty Ltd
Polyurethane Specialist System Suppliers
Proudly Australian Owned & Operated since 1988.

Shutdown Epoxy Grouts

Pascoe Industries specialise in manufacturing various ceramic wearing compounds. Our epoxy compounds are two-component, repair composites primarily used for rebuilding and protection. Our epoxy can be easily applied and also used as a strong structural adhesive for bonding or creating.

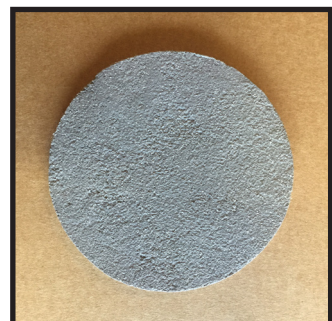

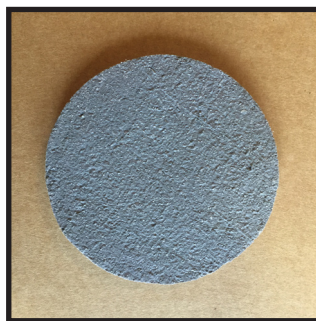

Our Shutdown epoxy range are heavy-duty, multi-purpose, abrasion-resistant, with ceramic filled wearing compounds that can be used to protect new or worn components to extend life under abrasive, erosive and corrosive conditions.

Epoxy grouts are made from resins and a Combination of Alumina & Silicon Carbide ceramic filler. Shutdown Epoxy grout is extremely durable and has great bond strength and chemical resistance.

Our Shutdown Epoxy grouts has many features including:

- Extremely Smooth Finish
- Resistance Free of all Solvents
- Moisture Tolerant
- Rated Non DG for Transport
- Excellent Abrasion
- Easy to Apply
- High Mechanical Strength
- Good Impact Resistance

If you are interested in any of our Epoxy products or want more information please feel free to contact us.
